## AOC-Q-Q-40G-20M-PRO

Arista Networks ${ }^{\circledR}$ AOC-Q-Q-40G-20M Compatible TAA 40GBase-AOC QSFP+ to QSFP+ Active Optical Cable (850nm, MMF, 20m)

## Features

- Support up to $4 \times 10$ Gbps bi-directional operation
- Compliant to the IEEE802.3ba
- SFF-8436 QSFP+ compliant
- Reliable VCSEL and PIN photonic devices
- I2C standard management interface
- Automatic power down while broken cable is detected to improve eye safety
- Low power consumption
- Excellent high speed signal integrity
- RoHS Compliant and Lead-Free

- Operating Case Temperature 0 to 70 Celsius

## Applications:

- 10G/40GBase Ethernet
- Proprietary high speed, high density data
- High performance computing, server and data
storage

## Product Description

This is a Arista Networks ${ }^{\circledR}$ AOC-Q-Q-40G-20M Compatible 40GBase-AOC QSFP+ to QSFP+ active optical cable that operates over active fiber with a maximum reach of 20 m . It has been programmed, uniquely serialized, and data-traffic and application tested to ensure it is $100 \%$ compliant and functional. We stand behind the quality of our products and proudly offer a limited lifetime warranty. This cable is TAA (Trade Agreements Act) compliant and is built to comply with MSA (Multi-Source Agreement) standards.

Proline's transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. \& 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S. - made or designated country end products.

## Notes:

1. AC coupled inside the AOC module.
2. Input swing to trigger Tx-squelch.
3. User selectable. Percentage is the ratio of pre-emphasis amplitude to output swing. Users could change by writing to page 3 address 237 , default value is " 10. ."

## Notes:

1. GND is the symbol for signal and supply (power). Connect these directly to the host board signal common ground plane.
2. VccRx, Vcc1, and VccTx are the receiving and transmission power suppliers and shall be applied concurrently. VccRx, Vcc1, and VccTx may be internally connected within the QSFP+. The connector pins are each rated for a maximum current of 500 mA .

## About Us:

Proline Options is one of North America's leading providers of transceivers and high speed cabling. With a reputation for quality, tested products that cover the connectivity spectrum, Proline Options has a solution for you regardless of the specification.

At Proline Options, every product is tested in its intended application - never batch or spec tested only. We run bandwidth, distance and IOS network tests. We have documented an impressive $0.03 \%$ failure rate over the last 10 years. To continue this rate of success we invest millions annually in our own on-site testing lab.
